

CERTIFIED MANAGEMENT ACCOUNTANT (CMA®) PREPARATORY PROGRAM

OVERVIEW

The Certified Management Accountant (CMA®) Program aims at preparing participants for the two-part CMA® Exam, which is an internationally recognized professional qualification in accounting and financial management. The Program is designed for business professionals looking to develop their careers in accounting through formal certification.

CONTENT

The CMA Program requires candidates to pass a series of uniform examinations covering a wide range of topics, such as:

- Cost Management
- Performance Management
- Risk Management
- Financial Statement Analysis
- Management Reporting Analysis and Behavioral Issues
- Decision Analysis and Internal Control

OBJECTIVES

- Perform planning, budgeting, and forecasting
- Extract financial data for strategic decision-making
- Manage working capital
- Analyze financing alternatives
- Evaluate capital investments
- Value acquisitions
- Appriase company's performance
