Certified Information Systems Auditor (CISA®)

Certified Information Security Manager (CISM®)

Review Courses

Be part of IT

MOTIVATION & BACKGROUND

Attaining the right certification has become crucial for all professionals especially in the IT and auditing fields.

Nowadays, most regulatory authorities, including central banks and government bodies, have a focused attention on enterprise finances and all IT processes that support financial system control and reporting. IT strategies, assurance and information security aligned with business goals is becoming critical to all businesses especially to medium and large organizations.

Given this, a joint effort is formed between LAU, a leader in the business education, and ISACA, the pace-setting global organization for information governance, control, security and audit professionals, to deliver Certified Information Systems Auditor (CISA®) and Certified Information Security Manager (CISM®) review courses.

STATEMENT OF PURPOSE

ISACA LEBANON

www.isaca-lebanon.org

ISACA Lebanon is dedicated to promote and develop awareness of IT controls, frameworks, audit standards and practices among IT and Audit professionals and users of Information Technology in Lebanon.
